Mr. Stryker brought out that even Mr. Comesky was unable to prove the identity of Ford's revolver as the weapon which killed Newman.

Dr. P. David Schultz, Anna Newman's physician, recalled by the defense, flatly contradicted the testimony of Mrs. DeFreest.

"Young Newman told me they had been married ten days. When they had only been married since that they had only been married since that itestimal by the defense had only been married since that they had only been married since that itestimal by the defense had only been married since that they had only been married since the last Saturday."

Dr. Schultze said that he had broken

the news of Anna's condition to her parents two hours before the call of Eugene Newman and Mrs. DeFreest. He did not take the news of the marriage to the Clearys until the next morning. Only Mrs. Cleary was at home. She said her husband had been out all night, but had telephoned.

Dr. Schultze said he would have talked freely to Mr. Gagan after the triagedy, but Mr. Gagan never sent for him or called him, but did examine him at the court house before the trial.

Q. Did you telephone to the Clearys after the call of Newman and Mrs. DeFreest? A. You; to ask how Anna was.

Q. Didn't you tell Mrs. Cleary that you had learned of her marriage? A. No.
